

Premium Services

What if the breach already happened?

Advanced simulations and forensic insights to expose hidden threats and test real-world resilience.

Red Teaming

Simulated multi-vector attacks that emulate real-world adversaries; testing detection, response, and resilience across people, processes, and tech.

Digital Forensic Analysis

Deep-dive forensic investigations uncover hidden trails of compromise, supporting legal, regulatory, and recovery efforts with defensible evidence.

Compromise Assessment

We hunt silently to validate your environment's integrity, detecting covert breaches, dormant malware, and threat actor persistence.

Your controls passed the audit!
But can they survive the adversary?

Let's Map Your Security Next Steps.

RISK ASSOCIATES

MSSP

Managed Security Service Provider

Together Towards Secure Digital Frontier

Built for precision across physical, cloud, hybrid, and critical environments, our services operate at the intersection of automation, analytics, and real-time expertise.

www.riskassociates.com

Core Services

Engineered to outpace modern adversaries.

SOC as Service

Security Operations Centre

Real-time log ingestion, correlation, and alerting, delivered through our 24/7 SOC. We detect, validate, and escalate threats before they escalate to you.

CTI as Service

Cyber Threat Intelligence

Actionable threat intel tuned to your industry, infrastructure, and risk posture. We move beyond IOCs to predictive threat modelling and adversary tracking.

DFIR as Service

Digital Forensics and Incident Response

When it happens, we know what to look for, where to look, and how to respond. From containment to root cause analysis, our DFIR specialists move fast and stay forensic.

End-to-End Visibility Across Your Attack Surface

VM as Service

Vulnerability & Threat Management

An intelligence-led approach to prioritising threats, mapping vulnerabilities, and orchestrating remediation.

OSA as Service

Offensive Security Assessments

Through red teaming, phishing simulations, and attack path modelling, we don't just show weaknesses; we challenge assumptions.

CS as Service

Cloud Security Services

Our cloud security services bring visibility, policy enforcement, and posture management to your hybrid or multi-cloud infrastructure.

Advisory and Professional Services

Detection is just the beginning. Response is being redefined.

ISGRC as Service

Information Security Governance, Risk, & Compliance

Our integrated security, governance, risk, and compliance (ISGRC) services bring clarity to complexity. Built to support CISOs, boards, and security teams from roadmap to readiness.

CRM as Service

Compliance and Risk Management

We embed audit-grade risk management practices that satisfy regulators and secure business continuity. From PCI DSS and SOC 2 to sector-specific mandates, our approach transforms compliance into a competitive advantage.
